

# MAKE YOUR OWN FISH BOWL

By Quickcraft

- 1** Print page two and three. Children are to colour or collage the fish, on page three, and cut them out.
- 2** Colour the water in the fish bowl and add some plants if desired. Glue the fish in their own arrangement into the bowl.
- 3** In the remaining spaces, draw in your own little fish. Once finished and dried, display around your room or allow children to take home and stick on their wall.

## You will need

---

- ▣ Coloured pencils, felt pens or crayons
- ▣ Scissors
- ▣ Glue
